

## ENGINEERED AND CONSTRUCTED A GREENFIELD LIQUEFIED NATURAL GAS PEAK SHAVING FACILITY

CLIENT - Confidential  
LOCATION - Southeastern United States  
EST. COMPLETION - Summer 2021

### DESCRIPTION

Matrix Service Company was awarded the engineering, procurement, and construction (EPC) for a greenfield liquefied natural gas peak shaving facility in the southeastern United States.

This facility will help the natural gas provider continue to provide customers with a reliable supply of natural gas during peak usage days, when low temperatures create a higher-than-normal demand.

Through the first half of construction, Matrix subcontracted over 40 local vendors for a total expenditure of over \$35M helping support the local economy. Additionally, for this project, Matrix has hired a peak of 175 Matrix employees, in addition to 10-12 new permanent jobs.
